Who We Are ?

Rooted in India
loved worldwide

At Diyan Rice Mill Industry, quality comes first. Based in Ahmedabad with a modern facility at Mundra Port, Gandhidham, we blend traditional expertise with advanced milling to deliver premium Basmati rice for global markets.

Our Vision

To deliver consistently superior Basmati and Non-Basmati rice through strict quality control, advanced milling processes, and transparent trade practices - bringing the authentic taste of Indian rice to homes worldwide.

Our Mission

To be recognized as a trusted global partner in premium rice exports - valued not only for our products, but for our integrity, reliability, and long-term partnership with every buyer.

Premium Quality Rice With Consistent Grading

1121 Premium Indian Sella Basmati Rice

Our Four Varieties

1121 Basmati

average grain length : 8.2-8.4mm-one of the longest Basmati grains in the world Known for its extra-long elongation, rich aroma, and premium export quality.

Available in : Raw • Steam • Sella • Golden Sella

1509 Basmati

Grain length : 7.4-7.8 mm - early harvest variety with excellent yield. A cost-effective choice, ideal for competitive export markets without compromising quality.

Key Highlights : High yield • Export-ready

1718 Basmati

Grain length : 8.0 - 8.3 mm - a modern hybrid variety. Offers excellent cooking elongation and consistent quality, gaining strong demand globally.

Key Highlights : High performance • Hybrid variety

Traditional Basmati

Sourced from the Himalayan region, known for its intense natural aroma and authentic taste. A preferred choice for premium dining and high-end retail markets.

Key Highlights : Authentic origing • Fine dining quality

OUR PRIVATE LABELING AND CUSTOMIZED PACKING SERVICES

We are not just traders - we are dedicated rice millers with complete control over the entire process. This end-to-end ownership ensures consistent quality, reliability, and long-term trust with our global partners.

Consistent Grading

Every batch is carefully sorted for colour, grain size, and moisture levels - ensuring uniform quality from the first shipment to the last.

Mill-Direct Supply

No Middlemen involved. We mill, process, and export directly - offering better value, transparency, and full traceability to our buyers

Custom Packaging

From pouches and PP bags to jute sacks and cartons - we offer flexible, customized packaging tailored to your brand and market needs.

Port-Proximity Advantage

Based at Mundra Port, our facility ensures faster loading, reduced transit time, and reliable global dispatch.

International Compliance

Certified with BRC, ISO 22000, HACCP, and FSSAI - ensuring global compliance across key markets.

Private Label Ready

Complete white-label solutions - from processing to packaging, helping you build your own rice brand with ease.

From Paddy to Perfect Grain

Our advanced six-stage milling process removes impurities and ensures consistency, delivering pure, clean, export-quality rice while preserving its natural aroma and appearance.

Quality Certifications

- ✱ BRC
- ✱ ISO 22000
- ✱ HACCP
- ✱ FSSAI
- ✱ Export Compliant

1

Paddy cleaning

Removal of dust stones, and all foreign particles to ensure a clean starting point.

2

Drying

Carefully controlled drying to achieve optimal moisture levels for longer shelf life.

3

De-husking

Removal of the outer husk to produce nutrient-rich brown rice.

4

Milling

Elimination of the bran layer to obtain refined white rice.

5

Polishing

Enhancing grain appearance with a smooth, premium finish.

6

Grading & Packing

Colour sorting, accurate weighing, and secure export-ready packaging.

FOR DISTRIBUTORS & RETAILERS

Expand your portfolio without owning a mill. Our private label program delivers fully managed, compliant, market-ready rice solutions so you can focus on growing your brand.

How We Maintain Our Quality

Quality is not just a process - it's mindset deeply embedded in our organization, At Diyan Rice, we follow a culture of continuous improvement, ensuring we consistently evolve to meet the changing needs of our consumers.

This commitment drives us to adopt the best agricultural practices and support our farmers at every stem. We ensure farmlands remain fertile and healthy, offer competitive pricing for their produce, and encourage sustainable methods like crop rotation. By combining our expertise with the finest seeds and modern farming techniques, we lay the foundation for superior quality.

Our strict quality control systems, along with state-of-the-art rice milling facilities, guarantee that only the finest rice reaches you - consistently and reliably.

Most Advanced Rice Milling Facility

Innovation powered by advanced technology lies at the core of our operations. It defines how we deliver consistent quality and efficiency across every stage of our process.

Our overall milling and processing capacity exceeds 1000+ metric tons per day, ensuring large-scale, reliable production.

Our fully automated and technologically advanced mills are built with precision engineering from globally recognized leaders such as Satake (Japan) and Bühler (Germany), integrated with cutting-edge solutions from other industry pioneers.

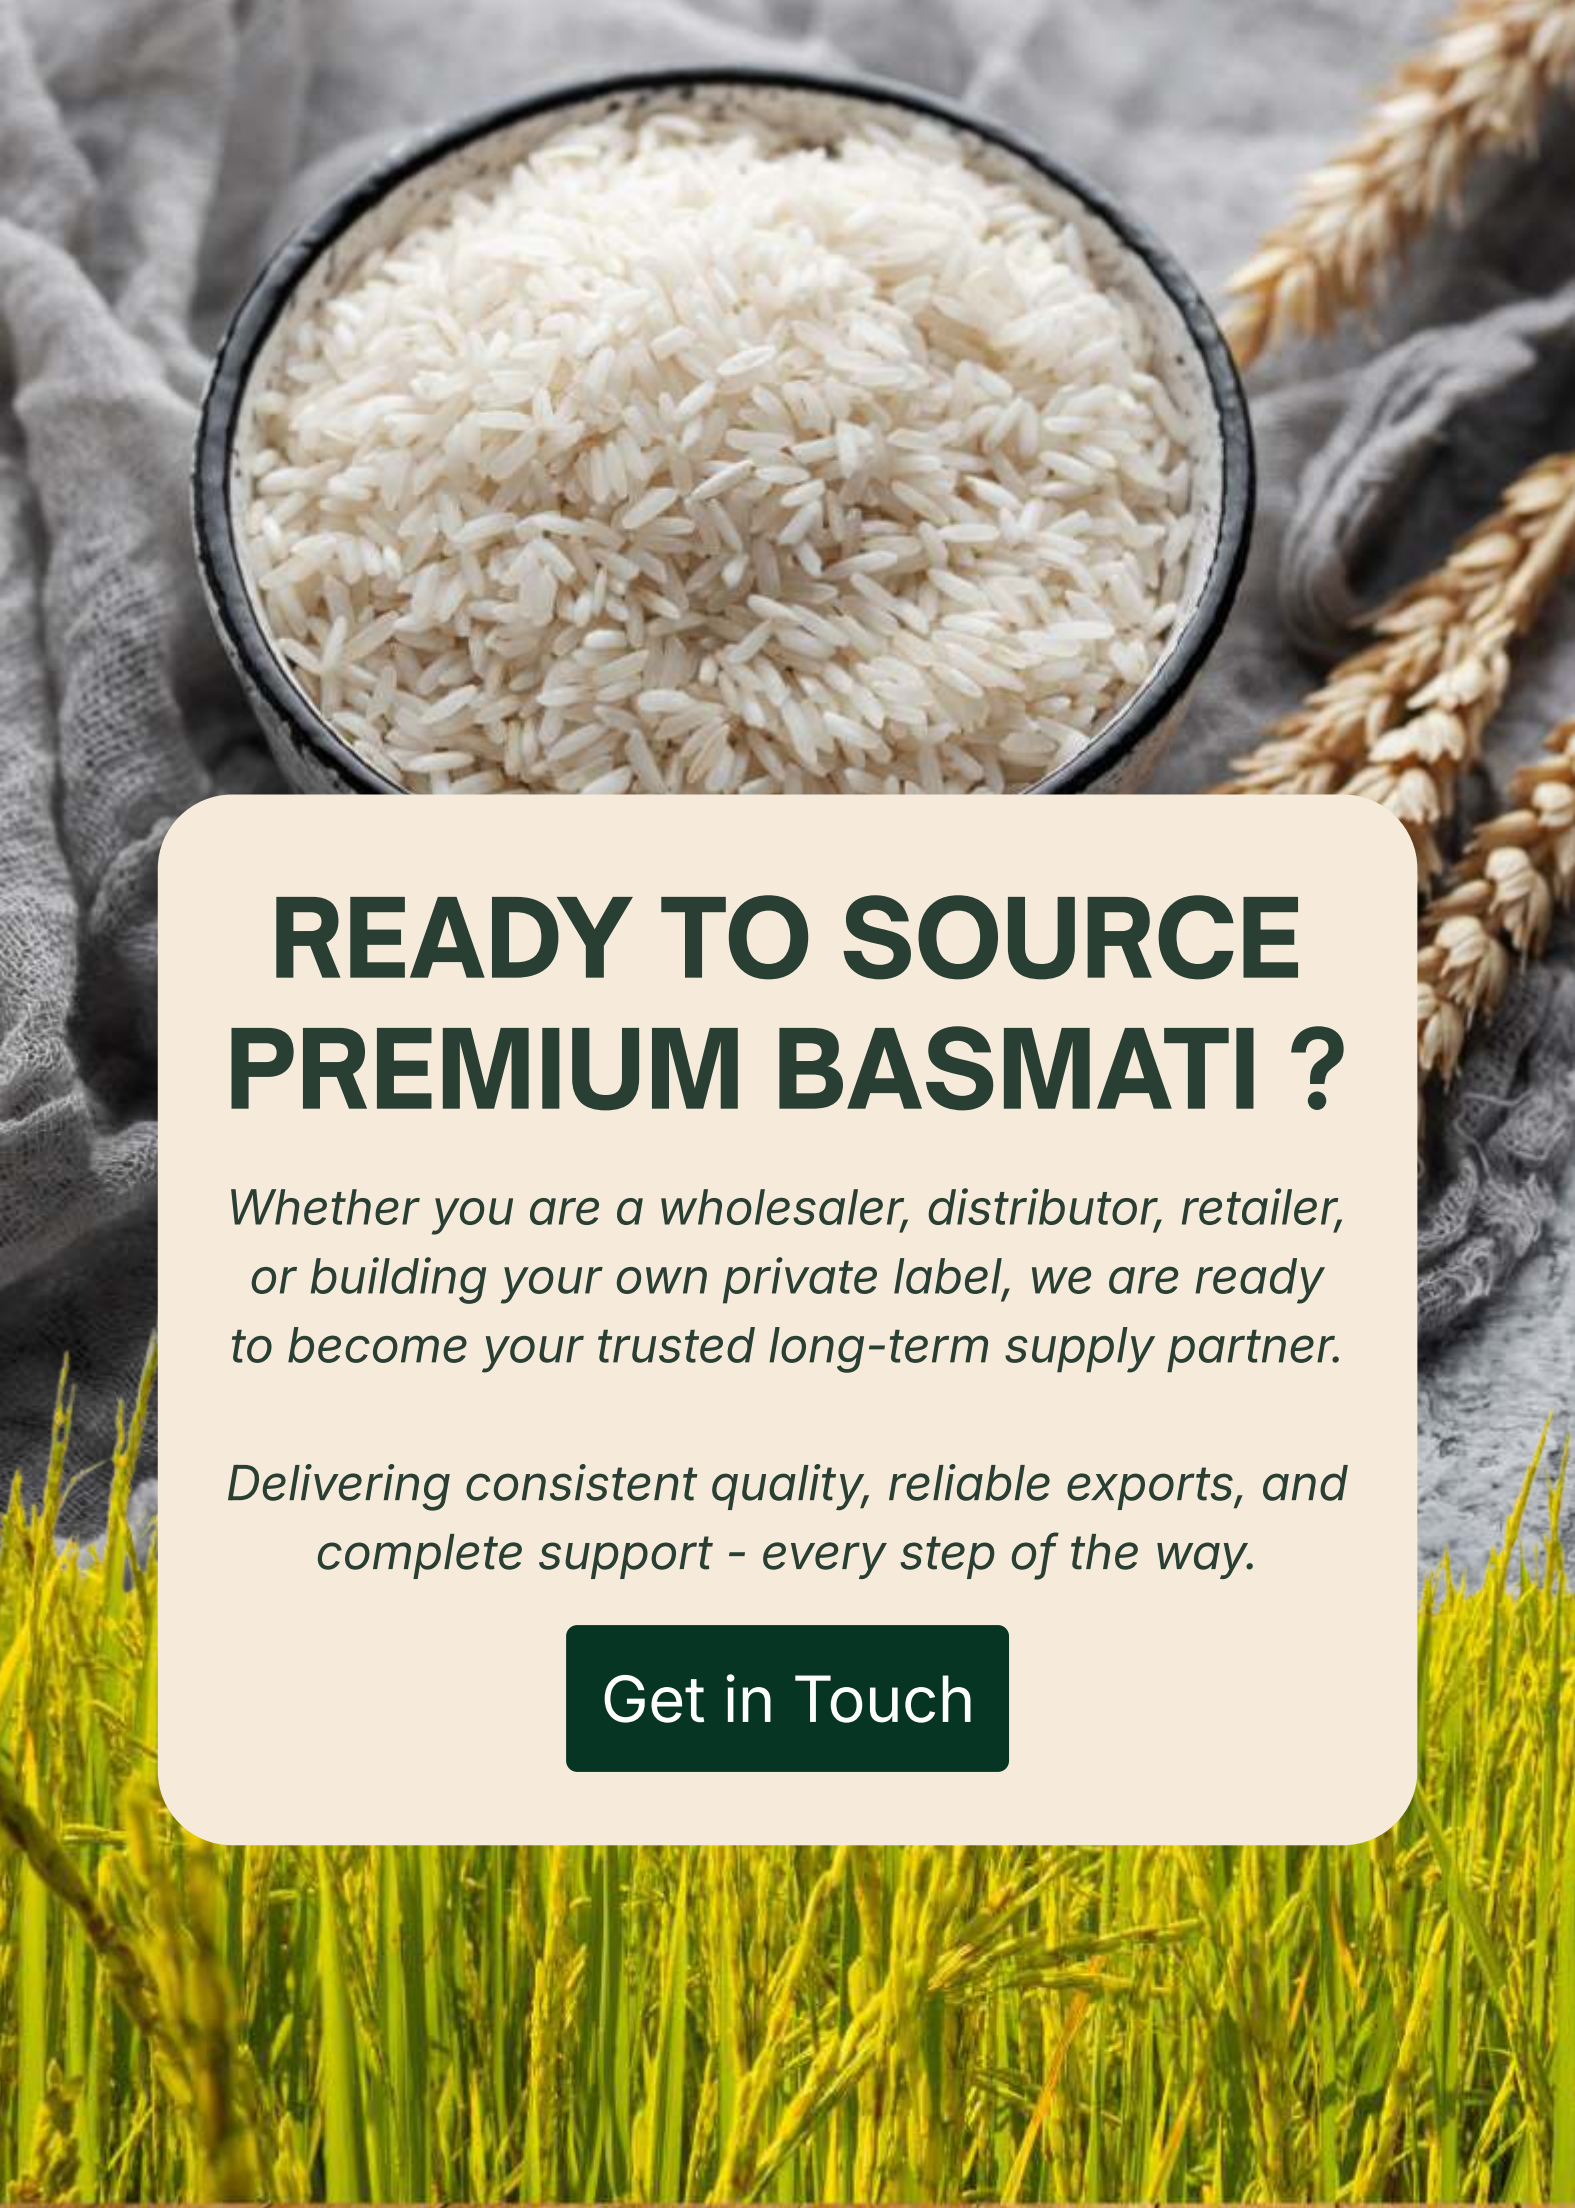

We operate 1 mega rice processing and milling facility, strategically located to ensure smooth operations and uninterrupted supply throughout the year.

We are continuously expanding our capabilities, with future-ready infrastructure designed to meet growing demand while maintaining the highest quality standards.

OUR OTHER LEADING BRANDS

A bowl of white basmati rice is the central focus, surrounded by wheat stalks and a background of a rice field. The text is overlaid on a light beige rounded rectangle.
